Coming SOON to
YOUR school...

Protect your child today!

The Facts:

- ◆ Approximately 80% of sudden cardiac deaths in youth did not have a prior symptom... their first symptom was death.
- ◆ Standard physicals do NOT replace preventative heart screenings.
- ◆ Each year, approximately 7,000 children (ages 6 -18) needlessly die from SCA. **SafeBeat** preventative heart screenings can help reduce the occurrences of these types of deaths.
